

# NAHB Emerging Professional Membership

**The Emerging Professional Membership** connects young professionals with a national network of industry experts and a local home builders association to help advance your career. Graduates from affiliated NAHB Student Chapters can remain NAHB members, and graduates from HBI workforce development programs and American Council for Construction Education (ACCE) accredited programs are invited to join NAHB as an emerging professional.

- **NETWORKING** Access industry professionals and special interest groups within the home building industry. Groups like Professional Women in Building and Young Professionals can be great connecting points. See what members are talking about on NAHB Connect.
